

ZOOKBINDERS SPECIAL FEATURES AND OPTIONS

Give each of your albums a special look with Zookbinders standard features and optional accessories.

Cameos (A)

Create an inviting cover with an optional cameo photo. Zookbinders started the cameo trend back in 1996—and these days we make them available for virtually every size album we offer.

Cover imprinting (B)

Add the final touch of quality by personalizing your albums with an optional cover imprint of the names and date of the special occasion. These are done in our italic font, and your clients can choose from black, white, silver, gold or branded (blind embossed).

Gilding (C)

Zookbinders is known for handmade quality—and our gilded edging is a great example. Hand gilding comes standard on all albums in your choice of black, white, silver or gold.

Pillowcases (D)

Each Zookbinders album includes a soft, “pillow case” and is delivered inside a handsome black presentation box. These make for an elegant presentation to your clients.

Slipcases (E)

Our custom-made slipcases add elegance to the presentation and display of your albums, and also add protection. These felt-lined cases can be ordered in matching leather for single or multiple volume albums for an additional charge.

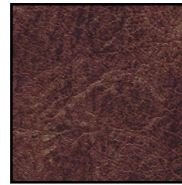

LEATHERS

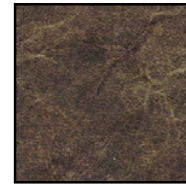

We build our custom-made albums using some of the finest quality materials on the market.

DISTRESSED LEATHER

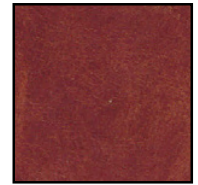

Luxurious top grain leather with a two-tone, burnished appearance.
